Portuguese

English

## ABOUT ME

I am a full-stack developer with over 8 years of experience, passionate about technology and development. I enjoy constantly learning and I'm an energetic, positive person, which helps with teamwork. I have solid knowledge of Ruby on Rails, having used the framework for more than 6 years. Recently, I've been working on projects with React, improving my Frontend skills.

## WORK EXPERIENCE

**DBA Tecnologia** - Intern -> Mid-Level Full-Stack Developer  
Aug 2017 - Jan 2023

- Creation and maintenance of modular web applications in Ruby on Rails with the Bootstrap styling framework;
- Development of an Android application in Java using interactive map systems;
- Development of APIs in Python using the Flask library;
- Maintenance of Docker containers;
- Interactions with and maintenance of Postgres and Redis databases;
- Integration of web applications with Google services (Maps, Vision);
- Development of Python web applications focused on interaction with the Linux command line;
- Maintenance of web applications using PHP, HTML, CSS, and JavaScript.

**Fetchly Labs** - Mid-Level Full-Stack Developer  
Feb 2023- Oct 2025

- Creation, development, and maintenance of various applications using Ruby on Rails, React, and Vue;
- Styling of components using Tailwind;
- Use of the agile SCRUM methodology;
- Integration with external services such as Google Shopping, Zoho Books, DocuSign, AirTable, Amazon S3, among others;
- Interactions with and maintenance of Postgres databases;
- Management of Sidekiq job queues;
- Connecting APIs and Frontend through REST and GraphQL requests;
- Deployment and workflow automation using CI/CD;
- Development of automated tests;
- Team management and client communication as a Tech Lead.
